# OFFICERS FOR THE YEAR.

---

## Visiting Magistrates for the County.

The Right Hon. the Earl of Ducie  
John Curtis Hayward, Esq., (Chairman)  
Purnell Bransby Purnell, Esq.  
Thomas Barwick Lloyd Baker, Esq.  
John Altham Graham Clarke, Esq.  
Sebastian Stewart Dickinson, Esq.  
Henry Hurry Goodeve, Esq., M.D.  
Charles Brooke Hunt, Esq.

The Rev. Samuel Lysons  
William Charles Lucy, Esq.  
Thomas Marling, Esq.  
Thomas Gambier Parry, Esq.  
The Rev. Thomas Peters  
William Nash Skillicorne, Esq.  
Joseph Yorke, Esq.

## Visiting Justices for the City.

James Peat Heane, Esq., (Mayor) | David Mowbray Walker, Esq.

## Consulting Physician.

W. W. Williams, Esq., M.D., F.L.S., &c.

## Superintendent.

Ebenezzer Toller, Esq., M.R.C.S., L.S.A.  
Formerly Medical Superintendent of St. Luke's Hospital, London.

## Assistant Medical Officer.

Mr. Francis Wilton, M.R.C.S., &c.

## Matron.

Miss Bishop.

## Chaplain.

The Rev. Herbert Haines, M.A.

## Steward and Clerk, and Clerk to the Visitors.

Mr. Benjamin Shadgett,  
Formerly Steward of the Royal Naval School, New Cross, London.

REPORT  
OF  
THE VISITING JUSTICES.

*The following Report of the Visitors of the Lunatic Asylum at Wotton, in and for the County of Gloucester, made in accordance with the provisions of the Lunatic Asylums' Act, 1853, was laid before the Epiphany Court of Quarter Sessions, held at Gloucester, for the County of Gloucester:—*

THE Visitors of the County Lunatic Asylum in accordance with the provisions of the Lunatic Asylum Act 1853, report that the County Lunatic Asylum contained on the 31st of December, 595 patients, of whom 286 were males, and 309 females, the admissions for the year having been 151. As the County Asylum in its present state is not calculated to contain more than about 620 patients, it is obvious that the extent of its accommodation is so nearly reached as to require the serious attention of the magistrates. The Visitors believe that by recourse to some slight expedients all the pauper patients requiring admission during this year may be provided for, after which time, however, some fresh provision must be made for that class beyond what the County Asylum affords,

or could probably be properly made capable of supplying. The following table will show the number of patients in the asylum at the close of each year since 1856, when the last large increase of accommodation took place, together with the number of admissions, deaths, and discharges for each year :—

| Year. | Number of patients<br>December 31<br>each Year. | Admission. | Discharges. |            |           |               |        |
|-------|---|------------|-------------|------------|-----------|---------------|--------|
|       |   |            | Died.       | Recovered. | Relieved. | Not Relieved. | Total. |
| 1857  | 407   | 130        | 41          | 36         | 2         | 2             | 81     |
| 1858  | 427   | 124        | 67          | 37         | 3         | 1             | 108    |
| 1859  | 479   | 115        | 53          | 10         | 7         | 4             | 74     |
| 1860  | 508   | 111        | 53          | 28         | 7         | 1             | 89     |
| 1861  | 513   | 141        | 64          | 63         | 12        | 6             | 145    |
| 1862  | 556   | 157        | 51          | 52         | 9         | 2             | 114    |
| 1863  | 595   | 151        | 57          | 39         | 11        | 1             | 108    |

From which it appears the number of admissions which had shewn a partial decrease during the first four of these years, have greatly increased since 1861, when the chargeability of pauper lunatics was thrown upon the common fund of the unions by the 24 and 25 Vict. c. 55. But it is not only from the increased number of admissions that the Asylum has become filled, but from the very unfavourable character of the cases admitted of late, a very small proportion of whom have been in any respect curable, while increased care and improved treatment have tended to prolong life. An annually increasing residue of chronic and incurable cases is thus left, which has already well nigh absorbed the whole of the large additional accommodation which has of late years been provided for the lunatics of this county. There are many chronic patients now in the Asylum of a quiet and harmless character, who appear scarcely to require the expensive accommodation of a County Asylum, but who could not at the same time be properly sent back to their unions, since the ordinary treatment of an union workhouse would be unsuitable for them, and if attempted, would in all probability, lead to their being returned to the Asylum upon the first visit of the Lunacy Commissioners. With a view

of disposing of some of this class, the Visitors have recently communicated with all the boards of guardians in this county to ascertain whether any of them were prepared to enter into an agreement with them under the provisions of the 25 and 26 Vict. c. 111, s. 8, for the reception of a limited number of quiet chronic lunatics, but they found that in two only of the workhouses of the county was there any spare room which could be devoted to such purpose and in these it was of too confined a character to be suitable. The Visitors are therefore compelled to draw the very serious attention of the magistrates to the subject of providing some additional accommodation for pauper lunatics, as a matter upon which some steps must speedily be taken. The County Asylum has now nearly reached that extent beyond which no additions can be made with advantage. It becomes, therefore, a matter worthy of consideration whether in making any further provision for pauper lunatics, it may not be desirable to form some sort of auxiliary establishment for the reception of a portion of the chronic and quiet patients, for which purpose an institution of an intermediate character between the expensive appliances of a county asylum and the economical discomforts of an union workhouse might be sufficient, provided that the consent of the Lunacy Commissioners could be obtained for the purpose. The health of the inmates of the Asylum has been generally good. No epidemic has prevailed, and no serious accident of any kind has occurred. The deaths have been 57. The farm buildings, with the set of workshops attached, which were in the course of construction last year, have been completed, and prove a valuable addition to the institution. The drying ground has been enlarged, and improved means of ventilation provided for the boiler-house; also some of the airing grounds have been improved. The Visitors have, during the year, made a fresh arrangement with the Board of Health for the supply of water, which is to be paid for by metre—a payment, however, amounting to £100 a-year being assured. A new main has been laid to the Asylum premises, and a new set of service pipes, with proper hydrants, to be available in case of fire, to be arranged round the buildings, under the direction of the County Clerk of the Works. During the year the Asylum has sustained

a very great loss in the retirement from ill health of Dr. Williams, the superintendent, who had most ably presided over the institution for 17 years, and under peculiarly trying circumstances, as, during the greater portion of that time, large structural alterations were taking place, and much building proceeding in the very heart of the establishment ; yet, notwithstanding these difficulties, he succeeded at all times in maintaining good order and keeping the institution in a continually improving state. It is, indeed, owing to his unwearied attention, zeal, and ability, that the Asylum has attained its high standing. The Visitors have appointed Mr. Ebenezer Toller, formerly medical superintendent at St. Luke's, as his successor, and, as far as they are yet able to judge, they feel reason to be satisfied with their selection. Discipline is maintained, the same kindly and generous treatment which insures the confidence of the patients is continued, the same attention is paid to keeping as large a number as possible of the patients employed, the same care is bestowed upon the decoration and rendering cheerful of the wards, and affording the means of amusement and recreation to the patients by entertainments and otherwise, and the whole establishment appears to be in a satisfactory condition. The Visitors further regret to record the retirement of Mr. Stephens, the clerk and steward, from ill-health, after 18 years of faithful and very valuable service : and that Mr. Benjamin Shadgett, late steward at the Royal Naval School, New Cross, has been appointed in his place.

J. CURTIS HAYWARD, *Chairman.*

## IX.

Shewing the probability of Cure of Patients admitted in 1863.

|               | Probably Curable. | Incurable or Chronic. | Total. |
|---------------|-------------------|-----------------------|--------|
| Males ... ..  | 21                | 56                    | 77     |
| Females... .. | 28                | 47                    | 75     |
| TOTAL ... ..  | 49                | 103                   | 152    |

## X.

Shewing the Forms of Disease in which there were Suicidal  
Propensities.

|                          | M. | F. | Total. |
|--------------------------|----|----|--------|
| Mania Acute ... ..       | 5  | 6  | 11     |
| " Chronic ... ..         | 3  | 2  | 5      |
| " Epileptic ... ..       | 0  | 1  | 1      |
| " Puerperal ... ..       | 0  | 2  | 2      |
| " Recurrent ... ..       | 3  | 3  | 6      |
| Melancholia ... ..       | 8  | 7  | 15     |
| General Paralysis ... .. | 3  | 0  | 3      |
| Total ... ..             | 22 | 21 | 43     |

## XI.

Shewing the Forms of Insanity in those who recovered in 1863.

|                    | M. | F. | Total. |
|--------------------|----|----|--------|
| Mania Acute ... .. | 7  | 5  | 12     |
| " Recurrent ... .. | 3  | 7  | 10     |
| " Puerperal ... .. | 0  | 2  | 2      |
| Melancholia ... .. | 8  | 7  | 15     |
| Total ... ..       | 18 | 21 | 39     |

## XII.

Shewing the duration of Insanity on Admission, compared with  
the duration of Residence in Asylum, in those who recovered  
in 1863.

| Duration on Admission. | M. | F. | T. | Residence in Asylum. | M. | F. | T. |
|------------------------|----|----|----|----------------------|----|----|----|
| Under 1 month ...      | 8  | 12 | 20 | Under 6 months ...   | 3  | 5  | 8  |
| " 3 " ...              | 4  | 6  | 10 | " 9 " ...            | 4  | 7  | 11 |
| " 6 " ...              | 0  | 2  | 2  | " 12 " ...           | 4  | 2  | 6  |
| " 9 " ...              | 1  | 1  | 2  | " 2 years ...        | 2  | 3  | 5  |
| " 12 " ...             | 1  | 0  | 1  | " 5 " ...            | 2  | 2  | 4  |
| Unknown ..             | 4  | 0  | 4  | " 7 " ...            | 3  | 2  | 5  |
| Total ...              | 18 | 21 | 39 | Total ...            | 18 | 21 | 39 |

## XIII.

Shewing the probably Curable Cases in the House Dec. 31st, 1863.

| MALES. | FEMALES. | TOTAL. |
|--------|----------|--------|
| 18     | 33       | 51     |

## TABLE XIV.

Shewing the Form of Disease in 598 Patients remaining in the House, December 31st, 1863.

|                          | M.  | F.  | T.  |
|--------------------------|-----|-----|-----|
| Mania Acute ... ..       | 15  | 29  | 44  |
| " Chronic ... ..         | 107 | 120 | 227 |
| " Recurrent ... ..       | 20  | 30  | 50  |
| Melancholia ... ..       | 31  | 42  | 73  |
| Dementia ... ..          | 36  | 31  | 67  |
| Epilepsy ... ..          | 37  | 36  | 73  |
| General Paralysis ... .. | 33  | 6   | 39  |
| Idiotcy ... ..           | 8   | 11  | 19  |
| Puerperal ... ..         | 0   | 6   | 6   |
| Total ... ..             | 287 | 311 | 598 |

TABLE XV.

Shewing the Number of Epileptic Fits and the Number of Deaths in each Month of the Year 1863.

|   | January. | February. | March. | April. | May. | June. | July. | August. | September. | October. | November. | December. |
|---|----------|-----------|--------|--------|------|-------|-------|---------|------------|----------|-----------|-----------|
| Total Number of Fits recorded in the Month... | 609      | 524       | 649    | 637    | 683  | 459   | 771   | 726     | 796        | 974      | 722       | 833       |
| Number of Patients under Observation          | 75       | 75        | 74     | 76     | 76   | 76    | 79    | 83      | 82         | 81       | 82        | 84        |
| Proportion of Fits to each Patient            | 8.9      | 7.4       | 8.5    | 8.19   | 8.75 | 6.3   | 9.6   | 8.62    | 8.5        | 12.2     | 8.6       | 9.7       |
| Daily mean Number of Fits                     | 19.2     | 19.8      | 20.2   | 21.7   | 22.1 | 15.9  | 24.2  | 23.1    | 26.1       | 31.1     | 24.2      | 26.2      |
| Greatest Number on any day                    | 32       | 39        | 27     | 28     | 31   | 26    | 32    | 32      | 47         | 44       | 35        | 40        |
| Least Number on any day                       | 12       | 18        | 14     | 13     | 9    | 10    | 10    | 15      | 17         | 22       | 15        | 18        |
| Number of Deaths in the Month                 | 5        | 3         | 10     | 6      | 4    | 6     | 10    | 2       | 3          | 1        | 2         | 6         |

TABLE XVI.

16

MORTALITY.—Shewing the Cause of Death, &amp;c., of Forty-one Patients who died in 1863, but were admitted previous to that year.

| No. on the Register and Initial | Age, Sex, Social Condition and Occupation. | Form of Mental Disorder.   | Assigned cause of Insanity | Duration of Attack prior to Admission | General Health on Admission | Period of Residence in Asylum    | Date of Death | Assigned Cause of Death                     |
